

Functions of body parts

- 01: Lower legs and feet - place the whole body
- 02: Thigh (Leg between knee joint and bottom of hip)
- 03: Pelvic area
- 04: Upper trunk
- 05: Head
- 06: Shoulders
- 07: Upper arms and elbows
- 08: Forearms and wrists
- 09: Thumbs and fingers

01 and 02 place the whole body, while 03 places the upper part of body to inform and perform. 04 through 07 provide the structure to support and position body parts for use, including mouth, informing part in 05. Actions take place in 08 and 09, which are performing parts.

Q/A:

Q) What is a reason for the numbering order of starting from feet to head?

A): It is the order to specify positional relation between the operator's body parts (ie. mi-mi positions). One's body needs to be placed with the feet first.
